Question:
What does
ACO stand for?

- A. All Cats are One!
- B. Accountable Care Organization
- C. Associate Coordinated Organizations
- D. Accredited Compliance Officer

Question: How
many ACOs
have Medicaid
contracts in
Utah?

- A. Two
- B. Three
- C. Four
- D. Five

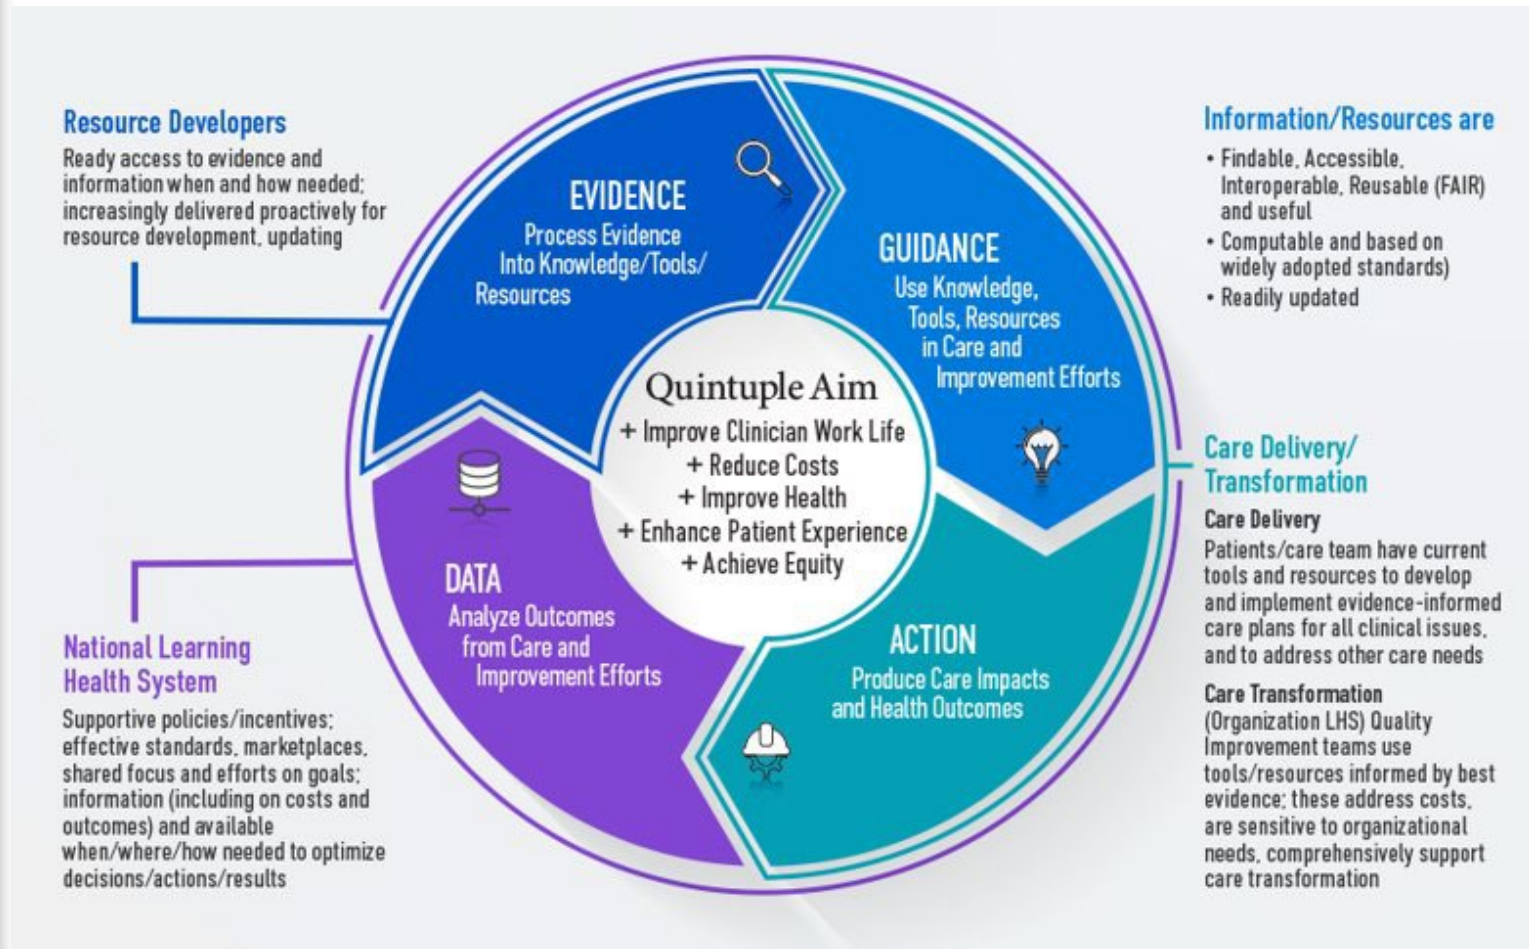

BONUS: Name them

Question: The
quality
department
oversees:

- A. Data integrity
- B. Claims payment accuracy
- C. Productivity
- D. A little bit of this, a little bit of that

Health Plan Quality Department Overview

- Quality responsibilities across product lines may vary
- QI roles and responsibilities support regulatory, rating, and financial goals
- The Quality Improvement Program complements the *Quintuple Aim* goals of the Institute for Healthcare Improvement. Most importantly, we help our members achieve their person-centered social, medical, and behavioral health goals.

Institute for Healthcare Improvement (IHI)

A LOT of this, a LOT of that

Typical Roles

- Chief Medical Officer (CMO)
- AVP, Director of Quality
- Healthcare Analysts
- QI Specialists
- Program Managers
- Medical Record Reviewers
- Credentialing Coordinators

Typical Responsibilities

HEDIS data collection and reporting	Compliance	Accreditation
Member engagement	Provider engagement	Credentialing
Delegation oversight	PQOCs	Satisfaction

Question:
What does
HEDIS stand
for?

- A. Health Equity Data Information Systems
- B. Hell Every Day in Spring
- C. Healthcare Effectiveness Data Information Set
- D. Health Education Diversity Integration Standard

Question:
What does
CAHPS stand
for?

- A. Consumer Assessment of Healthcare Providers and Systems
- B. Consumer Assessment of Hospitals, Providers and Systems
- C. Consumer Assessment of Hospice, Providers and Services
- D. Corporate Accreditation of Health Provider Systems

Question:
What is/are
Medicare
Stars?

- A. Actors over the age of 65
- B. Credits members can use to help pay for non-covered benefits
- C. Consumer rating system for Medicare plans and services
- D. Rating system developed by CMS to evaluate Medicare and Prescription Drug Plans

Quality Rating Systems for Health Plans

HEDIS®

Healthcare Effectiveness Data Information Set

HEDIS® includes more than 90 measures across 6 domains of care:

- Effectiveness of Care
- Access/Availability of Care
- Experience of Care
- Utilization and Risk Adjusted Utilization
- Health Plan Descriptive Information
- Measures Reported Using Electronic Clinical Data Systems

CAHPS®

Consumer Assessments of Healthcare Providers and Systems

- Used in calculation of NCQA Health Plan ratings
- Satisfaction measure for Medicare Stars

Quality Health Plan Survey

Used to assess member satisfaction for Marketplace

CAHPS® and Health Plan Ratings

Measure Name		Medicaid		Medicare		Marketplace	Commercial
		NCQA	State Contract	NCQA	CMS Stars	QRS	NCQA
CAHPS Measure Description							
	Getting Needed Care						
	Getting Care Quickly						
	Customer Service						
	How Well Doctors Communicate						
	Care Coordination						
	Access to plan information						
	Satisfaction with Personal Doctor						
	Satisfaction with Specialist						
	Satisfaction with Health Care						
	Satisfaction with Health Plan						
	Plan administration

Plan Detail Ratings

EXPAND ALL 

The overall rating score is the weighted average of all measures, not an average of the three composites (Patient experience, Prevention and equity, Treatment).

Note: NCQA used MY 2022 data and percentiles for commercial and Medicaid HEDIS/CAHPS and Medicare HEDIS. NCQA used MY 2021 data and percentiles for Medicare CAHPS and the Health Outcomes Survey. Several reasons could contribute to a plan having a non-numerical rating (Partial Data Reported, No Data Reported). For details about the Health Plan Ratings display rules, visit the [2023 Health Plan Ratings methodology on the 2023 HPR page](#).

+ Patient experience

+ Prevention and equity

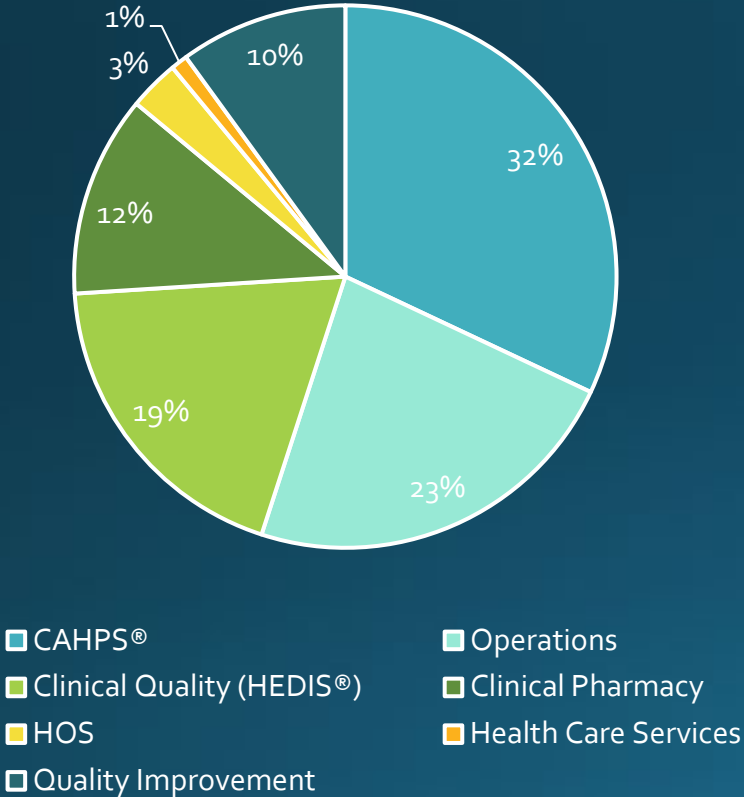

+ Treatment

Medicare Stars

Overall star ratings are calculated from specific measures that fall in these categories. Each category is important.

2025 Weights

Category	Category Description
Overall Stars	Measures Plan’s quality of health and pharmacy services received by their consumers
CAHPS®	Consumer Assessment of Healthcare Provider and Systems member survey Member survey that measures members’ experience with Plan and their providers
Operations	Measures Health/Drug plan’s operational processes around members’ access to care/services
Clinical Quality (HEDIS®)	Measures preventive care and management of chronic conditions
Clinical Pharmacy	Measures utilization/adherence of certain maintenance medications
HOS	Health Outcomes Survey Member survey that measures member’s perceived health outcomes
Health Care Services	Special Needs Plan Care Management
Quality Improvement	Measures a plan’s performance year over year for Part C and Part D

Medicare Stars Part C Measures

Category	Measure Name	Weight
Clinical Quality (HEDIS®)	Breast Cancer Screening	1
	Care for Older Adult – Medication Review	1
	Care for Older Adult – Pain Assessment	1
	Colorectal Cancer Screening	1
	Controlling Blood Pressure	3
	Eye Exam for Patients with Diabetes	1
	Hemoglobin A1c Control for Patients with Diabetes	3
	Follow-Up after ED Visit for Patients with Multiple Chronic Conditions	1
	Medication Reconciliation Post Discharge	1
	Transitions of Care	1
	Osteoporosis Management in Women who had a Fracture	1
	Plan All Cause Readmissions	3
Statin Therapy for Patients with Cardiovascular Disease	1	
HCS	Special Needs Plan (SNP) Care Management	1

Category	Measure Name	Weight
CAHPS	Annual Flu Vaccine	1
	Getting Needed Care	4
	Getting Appointments and Care Quickly	4
	Customer Service	4
	Rating of Health Care Quality	4
	Rating of Health Plan	4
	Care Coordination	4
HOS	Monitoring Physical Activity	1
	Reducing the Risk of Falling	1
	Improving Bladder Control	1
Operations	Plan Makes Timely Decisions about Appeals	4
	Reviewing Appeals Decisions	4
	Complaints about the Health Plan	4
	Members Choosing to Leave the Plan	4
	Call Center - Foreign Language Interpreter and TTY Availability	4
Improvement	Health Plan Quality Improvement	5

Medicare Stars Part D Measures

Category	Measure Name	Weight
Clinical Pharmacy	Medication Adherence for Diabetes Medications	3
	Medication Adherence for Hypertension (RAS Antagonists)	3
	Medication Adherence for Cholesterol (Statins)	3
	Statin Use in Persons with Diabetes	1
	Medication Therapy Management (MTM) Program Completion Rate for comprehensive medication review (CMR)	1
	Medicare Plan Finder (MPF) Price Accuracy	1
CAHPS	Rating of Drug Plan	4
	Getting Needed Prescription Drugs	4
Operations	Call Center - Foreign Language Interpreter and TTY Availability	4
	Complaints about the Health Plan	4
	Members Choosing to Leave the Plan	4
Improvement	Drug Plan Quality Improvement	5

quiz time!

Question: What national accrediting organization was established in 1990 with support from the Robert Wood Johnson Foundation?

- A. CDC: Centers for Disease Control and Prevention
- B. NAHQ: National Association for Healthcare Quality
- C. NCOA: National Committee for Quality Assurance
- D. JCAHO: Joint Commission on Accreditation for Healthcare Organizations

Question: What does TCPA stand for?

- A. Telephonic Contact Per Agreement
- B. Telephone Consumer Protection Act
- C. Total Customer Privacy Act
- D. Texting Consumers Penalty Act

The Role of Compliance

- State and Federal Regulatory Requirements
 - Appointment access and availability
 - Welcome calls to new enrollees
 - Service Access
 - Geographical access
 - Specialty access
 - Disabilities
 - Language and Cultural barriers
 - Customer contact center metrics
 - Turn-around times
 - Abandonment times
 - Average Speed of Answer (ASA)
 - Hold times

The Role of Compliance (cont'd)

- Quality Assurance and Performance Improvement (QAPI)
- Appeals and Grievances
- Performance Improvement Projects (PIPs)
- Member Rights & Responsibilities
- Member Advisory Committee
- External Quality Review (EQR) Audits
- Contractual requirements
- Accreditation

NCQA Accreditation

Why Health Plan Accreditation?

- Provides an operational framework to improve efficiencies and implement best practices
- Aligns with many state requirements
- Address key impact areas for member health and satisfaction
- Demonstrates commitment to quality

Accreditation Standard Categories

- Quality Management and Improvement
 - Population Health Management
 - Network Management
 - Utilization Management
 - Credentialing and Recredentialing
 - Member's Rights and Responsibilities
 - Member Connections
 - Medicaid Benefits and Services
-
- HEDIS and CAHPS used to measure levels of service and performance

quiz time!

Question: What is an example of an acceptable member incentive?

- A. You get a car!
- B. A gift card twice the value of the service performed
- C. A gift card to a theme park
- D. Whatever it takes to get the job done
- E. All of the above
- F. None of the above

Question: What are common components of a value-based provider agreement?

- A. Reduction of hospital bed days and readmission
- B. Completing annual health assessments
- C. Prescribing generics over branded drugs
- D. Achieving defined quality metrics
- E. All responses

Provider Engagement

- Provider Programs
 - Value-based contracts
 - Joint Operating Committees (JOC)
 - Quality bonus programs
 - Reporting/comparative data
 - Provider portals
 - Provider Satisfaction Surveys

Pay for performance

- FFS with an incentive for quality performance
- Upside-only incentive, no financial risk to the provider

Lower risk, complexity and provider earning potential

Shared savings

- If cost savings and quality targets are achieved for a group of members, we share the savings with the provider
- Upside-only incentive, no financial risk to the provider

Shared risk

- If cost savings and quality targets are achieved for a group of members, we share the savings with the provider
- If costs aren't managed according to the conditions of the arrangement, the provider may be responsible for a share of excess costs

Full risk

- The provider is financially responsible for the full scope of health care services rendered to attributed Molina members
- The provider receives 100% of upside incentives when cost savings and quality targets are achieved, and is financially responsible for losses when they aren't

Higher risk, complexity and provider earning potential

Compliant with 42 CFR 422.208 and substantial financial risk

Member Engagement

Activities/Programs

- Omni-channel communication
 - Mailers
 - IVR calls
 - Direct call campaigns
 - Email
 - Text messages
- Incentives
- Education
- Member Advisory Committee
- In home assessments
- Vendors
- Wellness programs
- Health fairs

Considerations

- HIPAA
- Communication restrictions
 - TCPA
 - PHI/PI
- Regulatory restrictions/ guidance
- Cost/Return on investment (ROI)
- Resources

Summary

Quality has a role in health plans

Quality Rating Systems

- Quality rating systems, such as NCOA, provide a framework for consistent structure, ongoing improvement, and implementation of best practices

Role of Compliance

- Quality supports state, federal, and regulatory requirements through development of policies and procedures, performance improvement projects, and tracking, data analysis, and reporting

Provider and Member Engagement

- Providers are key partners in successful quality programs
- Quality programs that engage members are critical to assure members receive the right services at the right time for the best outcomes

Questions
